About Me

I am currently pursuing an under-graduation course in Computer Science and Engineering at **Meghnad Saha Institute of Technology**. My interest in computer science began in 2019 when I started my first blog. Over time, this interest grew, leading me to explore various technical aspects of the field. In 2021, I seized the opportunity to advance my career by successfully qualifying for the JELET examination, solidifying my commitment to a future in web and computer science.

Project Work

Fake News Detection (Final Year Project)

Completed with Partial Success

Taking on this project provided me with the opportunity to gain hands-on experience with some of the most prominent technologies of our time: Artificial Intelligence, Machine Learning, and Deep Learning.

Personal Web applications

Hosted and uploaded on GitHub

Balancing these small projects alongside my academic studies was challenging. However, successfully completing them allowed me to learn new programming languages, frameworks, and APIs, as well as develop a crucial skill: time management.

Education

GPA 8.67

Graduation

Institute: Meghnad Saha Institute of Technology
University: MAKAUT

GPA 9.1

Diploma

Institute: Acharya Jagadish Chandra Bose Polytechnic
Board: WBSCT&VE&SD

Marks 74%

Higher Secondary
Science

Institute: Nabapally Boys High School
Board: WBCHSE

Marks 86%

Madhyamik

Institute: Nabapally Boys High School
Board: WBBSE

Efficiency

Understanding

- OOP
- DBMS
- DSA (BASIC)
- COMPUTER NETWORK

Extra Curricular

Blogging and e-Book publishing

5+ years of experience

Hobby: Teaching & Swimming
